==========THIS IS THE FOOTER===========

One or more lines of text that appear at the bottom of every page of a document. Once you specify what text should appear in the footer, the application automatically inserts it. Most applications allow you to use special symbols in the footer that represent changing values. For example, you can enter a symbol for the page number, and the application will replace the symbol with the correct number on each

You can usually specify at least two different footers, one for odd-numbered pages (odd footer) and one for even-numbered pages (even footer). You can usually specify at least two different footers, one for
