About the Directory and Handbook

This edition of the FHA Directory and Handbook was produced with most of its content copied from data stored as part of the FHA website, www.fearringtonfha.org. Starting with the 2012 edition, programs and techniques used to continually update the website do double duty in ensuring that the information you see in this book is current at the time the document is sent to the printer.

Information in the FHA Directory & Handbook will change throughout the year as the Fearrington community evolves. If you know of updates, please send them to directory@fearringtonfha.org. These changes will appear immediately on the website and will also be available in next year's Directory and Handbook.
