## Your meter has been upgraded to a smart meter.

You can now learn more about your energy use and receive personalized alerts. To access these tools, register for the new My Account on the Log In page.

---

### What's a smart meter?

It's a digital meter that wirelessly sends your energy use to Con Edison—meters are read remotely, which means no more estimated bills.

### Why smart meters?

Smart meters allow us to provide faster restoration of service, easier activation of new service, and easier integration of renewable energy into the grid.

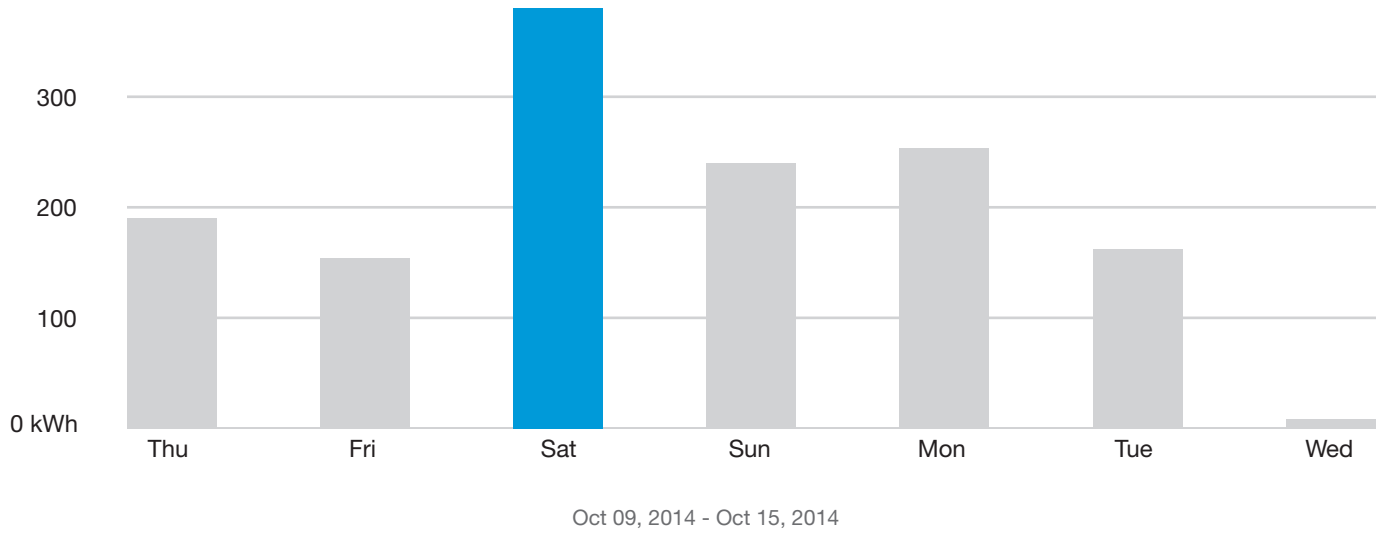

### How is this good for me?

Your smart meter will help you keep track of how you are using energy, so you can manage your bill and make choices that can help you save energy and money. Be on the lookout for special insights into your energy use!
