Mortality and Morbidity

Crude Mortality (%)

Other: 100%

Crude Morbidity (%)

- Malaria (suspected) : 13%
- URTI : 25%
- LRTI : 8%
- Skin disease : 10%
- Eye Disease : 8%
- Watery diarrhoea : 2%
- Bloody diarrhoea : 2%
- Measles: 1%
- Acute malnutrition : 0%
- Injuries : 6%
- Other: 26%
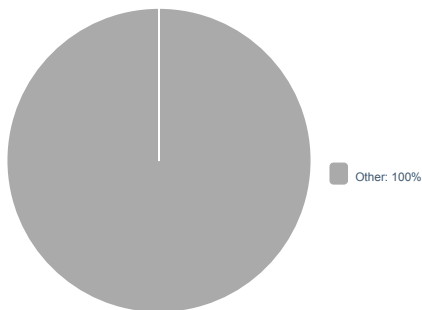

Top causes of crude mortality

		% mortality	No. of deaths
1	n/a		
2	n/a		
3	n/a		
4	n/a		
5	Other	**100%**	1
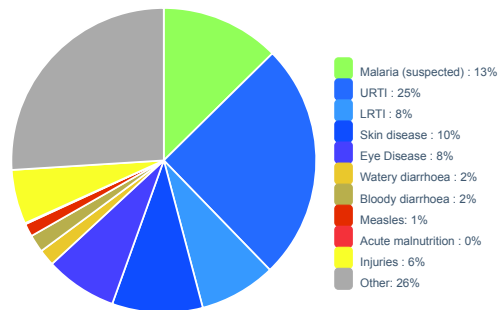

Top causes of crude morbidity

		% morbidity	No. of cases
1	URTI	**25%**	201
2	Malaria (suspected)	**13%**	101
3	Skin disease	**10%**	77
4	LRTI	**8%**	65
5	Other	**26%**	208

Public Health

Health Impact

	No.	Indicator	Standard	
Crude Mortality Rate (/1000/month)		0.1	< 0.75	2
Under-five Mortality Rate (/10,000/day)		0	< 1.5	^
Infant Mortality Rate (IMR) (/1000 livebirths)		0	< 30	^
Neonatal Mortality Rate (NNMR) (/1000 livebirths)		0	< 20	^
Global Acute Malnutrition Rate (%)		-	< 10%	?
Severe Acute Malnutrition Rate (%)		-	< 2%	?

Acces and Utilisation

	No.	Indicator	Standard	
No. of health facilities		-	1 : < 10,000	?
No. of consultations per trained clinician per day		13	< 50	2
Health Utilization Rate (new visits/person/year)		1	1 - 4	

Outbreak Alert and Response

	Indicator	Standard	
Number of outbreaks reported	1		
% of outbreaks investigated < 48 hours	100%	100%	2

EPI and Vitamin A

	Indicator	Standard	
Measles vaccination coverage	46%	> 95%	D

Supervision

	Indicator	Standard	
Do regular camp coordination meetings take place?	-	Yes	?
Were any drug shortages reported during the period?	-	No	?

Reproductive Health and HIV

Maternal and Newborn Health

	No.	Indicator	Standard	
No. of basic EmOC facilities	-		1 : < 500,000	?
No. of comprehensive EmOC facilities	-		1 : < 500,000	?
Number of maternal deaths	-			?
Number of maternal deaths investigated < 48 hrs	-			?
Crude Birth Rate (CBR) (/1000/month)	2			
Coverage complete antenatal care (> 4 visits)		100%	> 90%	2
% deliveries performed by caesarean section		0%	5 - 15%	^
% deliveries attended by skilled personnel		85%	â‰¥ 90%	!
% low birth weight deliveries		0%	< 15%	^

Sexual and Gender-Based Violence

	No.	Indicator	Standard	
Incidence of reported rape (/10,000/year)	11			
% rape survivors who received PEP* < 72h		-	100%	?
% rape survivors who received ECP** < 120h		-	100%	?
% rape survivors who received STI*** < 2 wks		0%	100%	^

HIV/AIDS

	Indicator	Standard	
Condom distribution rate	0%	> 0.5	^
% of blood units screened for HIV	-	100%	?

* Post-exposure prophylaxis ** Emergency contraceptive pill *** Sexually transmitted infection

Nutrition

	MAM	Standard		OTP	Standard		SC	Standard		CMAM	Standard	
Number of new admissions	0			-		?	-		?	-		
Average length of stay	-	< 8	?				-		?	-	< 30	?
Average weight gain (g/kg/day)	-		?	-		?	-		?	-	> 8	?
Discharge rate	-	> 75%	?	-	> 75%	?						
Death rate	-	< 3%	?	-	< 10%	?						
Default rate	-	< 15%	?	-	< 15%	?						
Referral rate	-			-		?						
Non-cured rate												

MAM: Moderate Acute Malnutrition, OTP: Outpatient Therapuetic Program, SC: Stabilisation Centre, CMAM: SC and OTP combined

Community Health Activities

	Indicator	Standard	
No. of health education and hygiene sessions conducted	-		?
No. of sanitation campaigns conducted	-		?
No. pregnant women who received clean delivery kit	-		?
No. of complicated medical cases identified	-		?
% of complicated medical cases referred	-		?

Water, Sanitation and Hygiene

	Indicator	Standard	
Average quantity of potable water / person / day (litres)	-	> 20	?
Number of persons per usable water tap	-	< 80	?
Number of persons per drop-hole in communal latrine	-	< 20	?
% of population living within 200m from water point	-	> 90%	?
% of families with latrines	-	> 85%	?
